

To the Environment Committee at hearing March 11, 2016

I would like to **support SB 384 & 385** that would both generate increased revenues for the maintenance and operation of State Parks. The totals of funding by the General funds have been diminished over the past years and the Parks have suffered from the inadequate State funding for the many thousand of acres of Parks and Forests.

Please support SB 384 and 386.

Best Regards,

Sidney F. Van Zandt
